

Release Agent for Mono-Polyether 1601/359 ZF

Base : Synthetic oils, tinfree.

Application : Demoulding of Polyurethane-workpieces.
The release agent imparts a silk mat surface and a pleasant grip.

It stands out for very good demoulding of single-density foams for shoe soles, as well as for slightest mould-soiling.

Processing : **The release agent 1601/359 ZF** is a ready to use product.
Before and during the processing the release agent should be stirred.

- Manual-processing with pressure-tank:
- Material pressure 0,3 bar
- Processing pressure 1,0 bar
- Nozzle size 0,3 mm

Also you can apply with a spray-roboter.

Technical Data :

- Base : Synthetic oils, tinfree.
- Density : 0,778 g/cm³
- Hazardous Classification : None
- Flashpoint : 62° C
- Storage : Cool and dry.
