

AQUACLEANER F

Base : Water based.

Application : AQUACLEANER F is a detergent solution. It can be used to wash flexible hoses of spray-gun-machines.

Process : AQUACLEANER F should be put in flexible hoses in the exact same way glue is introduced in the hoses. The product must stay in the machine for a period of 12 to 24 hours to be fully efficient.

Rinse using running water to remove any AQUACLEANER F residues. Residues left in the hose may damage the properties of the water-based adhesive.

Technical Data :

- Density : 0,97 g/cm³
- Hazardous classification : None
- Flashpoint : None
- Storage : Cool and dry, not below 5°C.
