

AQUACLEANER P

Base : Water based.

Application : AQUACLEANER P is a solution for washing paintbrushes used to apply water-based adhesives

Process : Put the paintbrush in a small amount of AQUACLEANER P for at least 15 minutes when you have finished using it.

Rinse using running water to remove any AQUACLEANER P residue. Any residue left on the paintbrush may damage the properties of the water-based adhesive.

For cleaning once the adhesive has already dried, it is advisable to first immerse the paintbrush in solvents.

Technical Data :

- Density : 0,97 g/cm³
- Hazardous classification : None
- Flashpoint : None
- Storage : Cool and dry, not below 5°C.
